

Sergio Pastor will manage the new company

FICOSA establishes a new business unit for Energy Efficiency (Uprime Energy)

Viladecavalls (Barcelona), 18th October, 2011.- Spanish multinational FICOSA has started up the new Energy Efficiency business unit, with the name Uprime Energy. The new company will offer “technology, inspection and certification services in the areas of safety and energy efficiency to convey the capacities and technologic developments of FICOSA to the final customer”.

The new company will be directed by Sergio Pastor, who will temporarily continue as board member in Tecnitoy, holder of the Spanish patent of the trademark Scalextric. Pastor will support FICOSA with his excellent background. He has been CEO of Applus+ (Agbar Group) and Financial Director of Sony España.

FICOSA has entrusted Sergio Pastor with the task of turning the company into a benchmark player in a market with important expected growths, following the trend already experienced by other countries such as Germany.

About FICOSA

FICOSA is an industrial group based in Spain and a global leader in research, development, production and marketing of automotive systems and parts. Founded in 1949, the company, with headquarters in Barcelona (Spain), holds a team close to 8,000 employees and manufacturing plants, technological centres and offices located throughout 19 countries in Europe, North America, South America and Asia.

The Group invests 4% of its income in R&D, and operates one of the top technology development centres in Spain addressed to the automotive, electronics, energy and communications industries. FICOSA has positioned itself for the future as a world leader in electronic systems with a global and more diversified business agenda and an expanded added value product line.
